

# *Please join us for MIFA's first Inter-Faith Handyman Project!*

**DATE:** Saturday, 11/19

**TIME:** 9:00 am – 12:30 pm

**PURPOSE:** The goal of the project will be to transform an area with multiple vacant houses by properly boarding up the vacant houses with plywood panels painted to look like windows & doors or murals. This project discourages vandalism, squatting, and crime, while simultaneously giving the area residents a better view from their own windows. Finally, it helps to preserve the vacant houses so that they can hopefully become homes once again.

**For more information and sign-up process, contact:**
